Part 1. Neighbours

Q: What suburb do you live in?

I live in Changwon, which is a quite sizeable suburb, located south of the Silver river. It's very peaceful with a few parks nearby.

Q: Tell me about what you like about your town.

What I like about my town most is the surroundings. Actually, my town is known for its beautiful nature. We have lots of parks, trees, ponds and lakes and I take pride in my town for these.

Q: Do you get along with your neighbours often?

Well, to be honest, I don't really get to talk to my neighbours very often. However, on special occasions like Christmas or Easter, we sometimes exchange gifts with a card. Also, whenever there is a need to co-operate or exchange ideas, we communicate by text messages and emails as well as talking to each other in person. But we don't really spend time together as friends. I hope I answered the question.

Q: Which group of people do you like better as your neighbours: young people or elderly people?

Well I've never thought about that before, but thinking about it now, I believe I would prefer young people as my neighbours. This is because I think it’ll be nice to have people my age around. We may understand each other better and become friends easily. Besides, I don’t really know how to interact with elderly people. I don’t think it will be easy for young people to become real friends than with the elderly.
